Subject: Parcel B & G - Risk Mgmt Plan excerpts that might be relevant to discuss

In Parcel UC-1 and UC-2, the Navy excavated to residential RG's. We had no further comments on the RMP (attached pdf) associated with that. Since the City has reminded us that Parcel B has soil w/contaminants above Residential RGs remaining under durable cover, I realized we may want to revisit the RMP sections. In addition, this discussion could be relevant to Parcel G residential use scenario. I attach a Word file with some excerpts that summarize some areas that I'm looking at.

Maybe we can do a breakout with just the agencies at lunch tomorrow to talk about this & other things.
